“ In today's world, everything works with collaborations & partnerships. ”

We live in an extremely competitive era today. The potential for growth in numerous industries is unbelievable. Corporations across the globe are constantly on the look out for young professionals who have an edge over the rest. We are witnessing an era of hyper-competition and the only way to survive and grow is to discover new talent.

At Aptech, we work with a passion and believe in delivering the very best. Over the last two decades we have earned an enviable reputation for quality and integrity, embracing the most contemporary technologies leading to world-class education programs, methodologies and international qualifications.

Our training methods are a combination of modern technologies and experienced faculty who are dedicated in educating students and unleashing their true potential. Thus preparing them for the booming world of I.T.

We welcome you to be part of Aptech. I am confident that together we will unleash your potential while exploring the I.T. Professional in you.

Thank you,

Journey to Success

Looking back at the **milestones of the past**, Aptech has been built on an **aspiration to impart knowledge** upon young minds. Aptech's **growth has been insightful** through building **honest relationships** in **many regions of the world**. Founded and established in India, Aptech has formed a stronghold across the globe with **modern training methods and expertise**.

Based in Mumbai, Aptech commenced its training and education business in 1986 and has globally trained over 6.5 million students. Aptech is an ISO 9001:2008 organisation and is the 1st I.T. Training and Education company, to get the certification for education support services in 1993. The company is established in more than 40 emerging countries, through its 2 main stream businesses - Individual training and enterprise business. As a leader in career education, Aptech has over 1300 centres across the world. Masters in vocational training, Aptech bridges the gap between traditional teaching and potential careers training students into industry ready professionals.

Designed to impart knowledge in all areas of Information Technology, Aptech offers world-class education programs, methodologies, technologies, and global certification. Aptech enables people across the globe to use I.T. optimally and efficiently through world-class I.T. training solutions. Today, Aptech students are working all over the world building knowledge corporations, communities and knowledge societies.

Having received two 'Apex 2010 - Awards for Excellence' and being among Brand Equity's 'Top 50 Most-Trusted Service Brands', Aptech is poised as one of the top 10 education most trusted brands and ready for future growth.

I.T. is an empowering tool, which when appropriately utilised, leads to an increase in productivity improvements and prosperity at the individual, organisational, societal, national and global levels. Education is also an enabler, which leads to continued improvement in productivity and prosperity. Aptech believes in imparting quality education using I.T. as the tool to empower its customers. To achieve our vision, we have created a performance-oriented work culture through learning, empowerment, innovation, teamwork, and transparency. We believe in and endeavor to empower our human capital, which is the most important resource for us.
